Better Code Bigger Dreams

SUMMARY

Web Developer and Programmer with a strong passion for technology, design, and photography. Skilled in developing web applications using PHP, MySQL, HTML, CSS, and JavaScript. Dedicated to creating functional, modern, and professional solutions. Highly motivated to build a successful career in the IT and software development industry, continuously improving technical skills and embracing new challenges.

WORK EXPERIENCE

Web Developer & Programmer (Full Stack) 2023 – Present

Freelance / Personal Projects

Completed structured training in Full Stack Development, working with technologies such as React.js, PHP, JavaScript, SQL, and MySQL. Developed functional web applications, featuring interactive forms, data management, and responsive design. Gained hands-on experience with Git for version control and collaborative development workflows.
